Good afternoon Wilson,

Attached you will find a few different versions of the Choroizo label that I photographed for you. The one missing is the Mexican product. I have to reshoot it this weekend. I will have it for you if not Monday then Tuesday the latest.

Also is the revised version of the Salchichon Cervezero.
USDA does not recognize Salchichon as a label only Salami so that is why I changed it from Salchichon to Salami.

Please let me know what corrections you would like for me to make.
Also let me know if you are content with the images for the Chorizo's so far. I tried to mimic them as close as possible.
